About SUKAD Learning & Development

In 2004, SUKAD started as a training (educational) provider. Since that time, SUKAD has earned an outstanding reputation as a provider of best value learning programs.

SUKAD offers numerous courses, workshops, learning programs, and even learning and development organizational solutions. Our differentiating factors are:

- All SUKAD consultants have extensive experience. Most of them considered as top consultants and thought leaders in project management.
- The vast majority of our learning programs are our own design and they blend global standards, the work of global thought leaders, in addition to our own pioneering research and development. We are not limited to one platform.

In November 2012, SUKAD officially restructured with two divisions: SUKAD Learning and Development and SUKAD Consultancy and Organizational Solutions.
